How to get to Ljubljana Castle

a) By funicular railway (Lower funicular station: Krekov trg 3, Ljubljana)

The most comfortable and picturesque route to the Ljubljana Castle is a ride in the funicular railway. Walk past the Puppet Theatre in Krek Square (Krekov trg) and you will find yourself in the lower funicular station. From there to the castle a short but scenic ride with stunning views awaits you.

Opening hours: until 23:00 (11pm)

One way: 2.20 EUR Return: 4 EUR

B) On foot

BEWARE: While the walking paths are relatively relaxing, not all paths are well lit during the evening. There are a number of paths and, if not careful, one may end up on the wrong side of the hill. While all areas surrounding the castle are generally safe, walking around the hill might prolong your walk for up to half an hour. Therefore, taking the funicular might be the surest way to descend into the heart of the town (next to Ljubljana Cathedral).

B) On foot

THE EASIEST WAY: Via Students path (Študentovska pot)

Follow the above detailed instructions to walk to the Central Ljubljana Market in Vodnik Square (Vodnikov trg), and from there take the path Študentovska pot, which will take you up to the Castle Hill. It is a pleasant ten minute walk to the castle, during which you can enjoy a bird's eye view of the beautiful streets, houses and markets of the Old Town.

SOME OTHER PATHS : Via Reber alley

Follow the road in front of Faculty of Arts (Aškerčeva, later Zoisova) across the Ljubljana river towards the castle hill. From the bus stop in the Upper Square (Gornji trg), head in the direction of the Old Square (Stari trg) and cross Levstik Square (Levstikov trg). After 150 metres, turn into a narrow alley called ulica Reber, whose steps wind there way between the houses, gradually ascending towards the castle. After another 150 metres, turn left into the path Mačja steza, which will take you to the walls of the Ljubljana Castle in just a few minutes.
